EDUCATION

Bachelor of Science – ECE: Computer Engineering

University of California, San Diego

Jun 2027

SKILLS

Language | English, Spanish

Front End | JavaScript, CSS, HTML

Back End | Python, Java, C, C#, MySQL

Testing/Deployment | JUnit, Ubuntu, Linux, Colab

Developer Tools | Git, Unity, Roblox Studio, Netlify

Hardware | Electronic Components, Testing & Debugging

COURSE WORK

CSE15L Software Engineering Tools and Techniques: Git, shell scripting, and debugging techniques ([Lab Reports](#))

ECE 35 Introduction to Analog Design: Analyzed and designed basic analog circuits using resistors and capacitors

ECE 65 Components and Circuits Laboratory: Hands on circuit design and testing for analysis ([Lab Reports](#))

EXPERIENCE

UC San Diego SuperComputing Cluster Competition Hashcat Competitor

Feb 2025 – Present

Competitor for the Student Cluster Competition @ UC San Diego

Ubuntu | Linux | VIM | Python | Raspberry Pi

- Developed Python automation scripts for batch attacks and hash preprocessing for the Hashcat benchmark, optimizing GPU acceleration for high-performance password recovery on Raspberry Pi cluster

Instructional Computer Science Instructional Design Assistant | UC San Diego, La Jolla, CA Jun 2024 – Present

Instructional Designer for Computer Science Education courses K-12 ([Course Page](#)) Coursera | Project Management

- Implemented course material on new learning platform with Coursera and enhanced digital learning experiences for 4 UC San Diego Computer Science Education courses, with 500+ total student enrollments
- Introduced new-technology learning material for redesigned EDS124AR course with topics such as AI in Society Cyber Security, Climate/Energy Consumption & Technology, Algorithmic Bias, and Robotics, and ensured accurate code in EDS124BR and EDS124CR courses, that introduces K-12 students to basic block-based programming and Java

Vice President of Programming | UC San Diego ColorStack, La Jolla, CA

Jul 2024 - Present

- Co-founded and launched the first chapter of ColorStack at UC San Diego, establishing a growing community of Latino and Black engineers with over 43 active members
- Hosted 5 club events such as general body meeting, career panels, and resume workshops with Google, Expedia, INUIT, and Netflix to help members get started on their technical career journey

Prison Project Research Assistant | UC San Diego Student Research Lab ([SIGCSE Paper](#))

Apr 2024 – Present

Researcher for computer science education in prison systems

Python | Colab | SIGCSE

- Co-authored a research paper accepted into the SIGCSE Technical Symposium 2025 program, showcasing key findings of students confidence levels, studying computer science education in prison systems, emphasizing the importance of centering the voices and perspectives of justice-impacted individuals with advisors and fellow researchers
- Analyzed 4 graphs from qualitative data responses from 50+ total justice-impacted students Python in Google Colab with libraries such as Seaborn and Statistics

Computer Refurbishing Volunteer | C2K, San Diego, CA

Dec 2023 – Present

Volunteer for non-profit providing computers to low-income families

Hardware Testing | Refurbishing

- Volunteered 20+ hours providing education software and technical support to children and families by refurbishing electronics and participating in computer distribution events; Inspected, troubleshooted, and refurbished hardware over 16 devices, including desktops, laptops, and mobile devices for distribution

Code Sensei | Code Ninjas, Chula Vista, CA

Nov 2021 – Aug 2022

Programming Instructor for children developing video games

JavaScript | Python | Lua | C# | Unity

- Mentored over 40 students in programming C# with Unity Engine and Lua in Roblox Studio, all students finished with a complete video game to present by end of program
- Tailored instructions to students depending on their skill level, cultivating a supportive learning environment while introducing students to fundamental concepts of full-stack development and held over 4 coding camps with 90 total students
